Directions to Meeting Point at Samui International

Once you have collected your luggage at the baggage claim, you will exit, on the left-hand side, into an open area with several counters offering tourist information, car rental and hotel services.

If you proceed on your right, passed all the counters, you will notice some signage directing you towards the meeting point on your left-hand side.

Continue walking down the corridor on your left and you will be led directly towards the meeting point, where you will see a number of people holding up signs, including our hotel limousine driver, who will have a sign with Hotel name on it.
